

Using Today's Technology to Help Build a Brighter Tomorrow
One Community at a Time

Data Entry has never been easier. I now spend more time with the client and less time working with spreadsheets.

CASE MANAGEMENT

Easily manage your client case load using program specific Goal Definitions, Achievement Indicators and Outcome Measures; fully compliant with ROMA reporting standards and the National Performance Indicators. ORS includes over 500 pre-defined Goal Definitions, Achievement Indicators and Outcome Measures so you can begin managing your case load easily and efficiently! ORS allows your organization to change, delete or modify all pre-defined data to meet the specific needs of your agency. You can even add new sections as needed!

REPORTING

ORS includes over 230 standard reports, with virtually every one customizable! Each report features user controlled selections to help analyze and dissect your data any way you want it! Easy to use query wizards make sorting and analyzing reports simple. Advanced reporting tools provide administrators with the power to produce professional reports for Community presentations, Board meetings, Funding sources or Government agencies. ORS remains the industry leader for collecting, analyzing and dissecting your data.

FUND TRACKING

Setup multiple fund balance accounts to track a variety of funding sources; rules based for a variety of program and/or funding source requirements. Complete Fund Reporting to satisfy Agency, Department, Program and Funding Source requirements.

REFERRALS

ORS makes it easy to track client referrals, whether made "to" or received "from" outside agencies or other programs within your own agency. With ORS, you can easily track, manage, follow-up and report on all referral activity by program or for your entire agency.

VOUCHERS & LIHEAP

Enter client information, determine eligibility, and process your client's Energy Assistance voucher... Fast, easy and accurate! The ORS Vouchers module will allow any program to setup and track cash or voucher assistance provided for ANY category of expenses. Complete integration with the ORS Fund Tracking system eliminates overspending of your allotted fund balances and duplication of client assistance.

CLIENT MANAGEMENT

Collect, analyze and report client demographic information quickly and easily - all from one central location! Create customized tables to collect data that is unique to your organization. ORS makes it easy to view client information from one screen; no need to move thru an endless maze of screens to find the information you need! ORS allows you to enroll clients in multiple programs, provide multiple services or referrals and measure outcomes – by program, by any combination of programs OR for the entire agency.

Software that Changes Lives and Communities

Experience the Results

The Outcome Results System allows organizations to more efficiently serve families and communities by streamlining day-to-day operations. Collect client demographic information, establish and track goals, measure outcomes, track referral information, write energy assistance or other types of cash assistance vouchers, develop achievable case plans, track income sources, provide budget counseling by tracking expenses AND produce easy to read professional reports.

Experience the Power

ORS en Español: Simply toggle back and forth between English and Spanish with a single click. Print your application form in Spanish so there is less confusion about the information you are asking the client to complete. All data entry screens, report forms and ORS reports will print all headings in Spanish or English; remember the data you enter will print in the language in which you enter it.

ORS Favorites: Enables each user to setup their own favorites section saving valuable time performing routine functions. Add reports and other functions that you run regularly right from your own "Favorites Toolbox".

ORS Web: Access your own data anywhere, anytime over the internet! Allow ORS to host your system in a secure environment with daily backups to ensure your data is safe.

ORS in Spanish allows users to easily toggle back and forth between languages.

Client Characteristics Report

Client Characteristics Report

Healthcare/Telemarketing	1	1	

With over 230 reports ORS allows users to select the data they need.

“With an organization of our size, we couldn't afford software with a huge learning curve. ORS was user friendly and intuitive from the very beginning.
